Hi Jim, hope all is well.

The BES lab has been reserved Aug 11th at 5:30pm-8pm. But if 6pm works better let Kristine know.

Jim, we recognize the FS chapters contain detailed information to digest. For this reason Kristine has agreed to discuss the revisions with CAG. EPA's overview of the revisions with CAG is not a required activity – but rather a voluntary activity. The FS sessions are designed to support CAG's preparation for conceptual design and proposed plan input. On Aug 11 we look to have a positive exchange of pertinent information, and ask that you help us facilitate a positive meeting with CAG members. Although the CDF is a concern, there are other points we'd like to spend time on. We are willing to meet with you, others, who are interested in moving the process forward, but no longer have capacity to engage in combative discussions that are not beneficial to the process. So again, I ask that you help us facilitate the discussion.

From: EPA(Dennis McLerran)/Community Partner meeting is August 6th at 2:30pm at EPA office. 805 SW Broadway Street, Seattle 98100.

You may want to mention feedback from the Community CAFÉ and also discuss the River Revival and other plans CAG has for reaching community.

I am out of the office until Aug 11, or 12 depending on schedule. Questions while I'm out, please contact Kristine or Annie Christopher.

Thanks Jim for your continued service.

Subject: August 11?

Are we still planning to have discussion on August 11 about FS sections 3 & 4?

Jim
